## SECTION C

## ENVIRONMENTAL IMPROVEMENT INITIATIVE RESULTS

## Why do we need this information?

Facilities need to share the results of the environmental improvement initiative that was pursued during the reporting period.

## SECTION D

## ENVIRONMENTAL IMPROVEMENT INITIATIVES

Why do we need this information?

Facilities need to show they are committed to improving their environmental performance.

What do you need to do?

Identify your facility's next environmental improvement initiative. Refer to the Environmental Performance Table and answer the following questions.

1a What category have you selected from the Environmental Performance Table? Waste

1b What indicator have you selected from the Environmental Performance Table? Non-Haz

1c All measurements should represent the performance level for the indicator across the entire facility. For many indicators, you may choose to focus your initiative on a specific subset of the indicator (e.g., a specific material, process, VOC, group of toxic air emissions, or particular waste component). Does your initiative include everything covered by the indicator (e.g., all VOCs, all non-hazardous waste), or a specific process, substance, or component (e.g., ethane, cardboard)?

☒ All

☐ Specific

If your initiative is specific to a substance or component, please provide additional detail on your indicator (e.g., specific chemical to be reduced, specific waste component). \_\_\_\_\_

1d What activities or process changes do you plan to undertake at your facility to accomplish your initiative (e.g., technology changes in a particular process line, employee training)? Employee awareness, education, LEAN, Source reduction, increased recycling

2 Does this initiative address a significant aspect in your EMS?

☒ Yes

☐ No—please explain why you believe this indicator should be included as an environmental improvement initiative: \_\_\_\_\_

3 Are you subject to Federal, State, tribal, or local regulatory requirements for this indicator?

☐ Yes—please explain how your initiative exceeds regulatory requirements: \_\_\_\_\_

☒ No

**Stop!** If the category listed in Question 1a is Energy Use, Waste, or Air Emissions for Total Greenhouse Gases, please skip Questions 4a – 4b below and turn to Appendix 1 to complete the questions pertaining to the category you listed in Question 1a. After completing the respective table in Appendix 1, return to this section and complete questions 5 and 6. Otherwise, continue answering questions 4-6 below.

4a What units are you using to quantify this indicator? Ton

4b List the baseline annual quantity of the indicator and the annual quantity you are committing to achieve by the future year.

<u>828</u>	Baseline quantity	Year <u>2009</u>
<u>500</u>	Future year quantity (not including production)	Year <u>2010</u>

5 Does the quantity presented in the future quantity column represent an absolute goal or a normalized goal?

☒ Normalized goal (i.e., indexed to level of business in baseline year)

☐ Absolute goal (i.e., demonstrates improvement even if production increases)

6 Whether your goal is absolute or normalized, you need to provide normalizing factors and normalized quantities in your annual performance reports. Please briefly describe your basis for normalizing. Examples of potential normalizing basis include: gallons of paint produced, square feet of circuit boards sold, number of patients seen, dollars of sales adjusted for inflation, or number of employees (for R&D and administrative sites only).
